Trocadéro by Ramón Esteve

Talenti, flagship of Made in Italy in the world for the outdoor, presents the new collections signed by names of excellence. Seats, tables and accessories for outdoor that inspire relax and comfort, able to excite and furnish spaces with elegance, functionality and a unique style. Beautiful furnishings, created with attention to each single detail and made with refined finishes and materials but also practical and pleasant to live.

The furniture of this collection revisits the stylistic features of that era, preserving its romanticism. The simple lines of Trocadéro make the collection contemporary and able to adapt to both public and private spaces. The materials chosen are in line with current trends: aluminum for the bended frame and "pendant" or natural teak armrests.

Cavatorta Group Companies

Cavatorta Group companies produce a wide range of high quality wire mesh products for a variety of residential, industrial and sports applications, for the building industry, agriculture and gardening. Cavatorta also has a complete range of galvanized and plastic coated wire, nails – including masonry nails - and accessories designed to meet various demands. The history of Cavatorta Group started in 1961 with the construction of the first factory in Parma (Italy). The business operated in the production of fencing systems, to which later we added the works of wire drawing and galvanizing. The widening of the range continued with the production of welded, galvanized and plastic coated wire. Today Cavatorta is an international group with production factories in Italy, France and Romania, subsidiaries in Great Britain, Portugal and the United States and distributors in over fifty countries.

Bonaldo, Made in Italy design with an international soul

Set up in 1936, Bonaldo has been developing around three cornerstones: passion, quality and research. In over 80 years of business specializing in the production of design furniture and accessories, the company has always focused on collaborations with established designers from all over the world, thus confirming its international bent. All Bonaldo's collections are based on some distinctive elements, such as color, harmony of shapes and lines, functionality. These are particularly evident in the Big Table, designed by Alain Gilles, which this year celebrates its 10th anniversary and still represents Bonaldo's iconic product, and in the most recent designs, such as the Art table by Gino Carollo.

DVO office furniture

DV913-Vigo is an executive furnishing collection designed to give a strong and distinctive personality to the office. In this concept, the table is a work of architecture on a reduced scale, a meticulous design element in which the important thickness characterizes the sides and the robust worktops. The sculptural contrast of weights and volumes fully identifies the spirit of the Vigo collection.

DVO S.P.A. offers a wide range of operative and executive office furniture, giving the possibility to create customized products. These features, combined with the customer service and the prompt deliveries, were the starting points for the fast growth of the company, which today distributes its products in over 100 countries.
